

DE FABULOUS®

**DETOXIFY SCALP,**  
*Rejuvenate Hair*

# TREATMENT OVERVIEW

De Fabulous hair detox is the perfect product for dandruff-prone, chemically damaged, and fragile hair types.

De Fabulous Hair Detox consists of botanical ingredients such as Acai Berry oil, Jojoba seed oil, almond oil, and avocado oil. Acai berry oil helps in providing deep nourishment for the hair.

The Jojoba seed oil is known to soothe the skin and is an excellent remedy for dandruff-prone hair. Almond oil is known to improve blood circulation in the roots of the hair promoting longer, thicker, and healthier hair.

Avocado oil helps in lubricating, detangling, and relaxing hair follicles. A combination of these naturally occurring ingredients makes the treatment extremely effective in caring for the hair.

Along with this the treatment also keeps a check on dihydrotestosterone which promotes hair thinning & baldness.

# FEATURES

**1** The treatment is designed to be a stand-alone treatment that can repair, soothe and rebuild you hair quality.

It is a deep-conditioning treatment that soothes the scalp and makes it healthy. The D-Tox treatment is made of botanical ingredients that make it safe for use on the hair.

**2**

**3** The treatment helps eliminate Dihydrotestosterone which causes balding & hair thinning.

If used on scalp then repeat the treatment in 21 days

**4**

**5** Hair D-Tox maintains the scalp pH level at 1.5

# FAQs

1. How long does the treatment effect last?

The Hair Detox treatment lasts for 36-40 washes.

2. Does the treatment include a same-day wash or does the treatment need to be left in for a day?

For best results, it is recommended to leave the treatment in for 24 hours

3. What is the minimum age to conduct the Hair Detox Treatment?

The treatment can be performed on any individual above the age of 15.

4. Does the treatment leave a line of demarcation?

No, this treatment fades naturally without leaving a line of demarcation.

# POST-TREATMENT GUIDELINES

It is advisable that a sulfate-free & protein -based shampoo along with a conditioner is used post Detox treatment. Using a tea-tree mask instead of a conditioner once a week is recommended.

Use a leave-in cream as a base product before applying any styling product or carrying out heat styling procedures.

Daily shampooing is not advised as it will cause the effects of the treatment to wear out quickly. Shampooing thrice a week at the most is recommended.

Frequent oiling is also not advisable as it would cause product build-up in the hair.

The use of metallic dyes or henna is not recommended post-treatment.

# DE FABULOUS HAIR DETOX AFTER CARE

We recommend you use a De Fabulous  
Tea Tree Oil Shampoo & Conditioner as  
your aftercare regime for the treatment  
(Consult your hair stylist).
